

PYTHON FULL STACK DEVELOPER

DEEPAK DILEEP

Career Objective

Motivated Full Stack Developer with hands-on experience in Python, Django, and modern front-end technologies, gained through an internship and academic projects. Skilled in designing, developing, and deploying responsive, database-driven web applications, with a strong focus on clean code and collaborative development. Seeking a Full Stack Developer role to apply technical skills and problem-solving ability toward building efficient, user-focused software solutions.

Technical Skills

- **Front-End:** HTML5, CSS3, JavaScript, Bootstrap
- **Back-End:** Python, Django
- **Database:** MySQL
- **Tools & Practices:** Git, GitHub, MS Office, Canva, Agile/Team Collaboration

Projects

HappyVision – Eye Care Appointment System

HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

- Developed a full-stack web application enabling patients to book appointments with eye specialists at a healthcare institution.
- Designed a responsive, user-friendly interface using HTML, CSS, Bootstrap, and JavaScript to ensure smooth booking across devices.
- Implemented server-side logic and database operations with PHP and MySQL to manage appointments, doctors, and patient records.

Syncera – HR Management System

HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

- Built a web-based Human Resource Management System to automate and streamline core HR activities such as employee records and workflows.
- Developed dynamic, responsive front-end pages using HTML, CSS, Bootstrap, and JavaScript for an intuitive admin and employee experience.
- Designed the MySQL database schema and implemented PHP-based backend logic for secure data handling and processing.

Experience

Python Full Stack Intern

SMEC Technologies, Kaloor, Kochi

- Completed hands-on training in full-stack web development using Python, Django, HTML, CSS, JavaScript, and Bootstrap.
- Worked on building and integrating front-end interfaces with back-end logic and MySQL databases under mentor guidance.
- Gained practical exposure to the software development lifecycle, version control with Git/GitHub, and collaborative coding practices.
